Automation
With the rapid rise of technology in transportation, the City of Los Angeles Department of Transportation (LADOT) will need to deploy and support an ecosystem of advanced technologies to meet policy objectives and create truly great streets for all Angelenos. LADOT must evolve into a platform for transportation innovation that focuses on three core customer services:

DATA, MOBILITY + INFRASTRUCTURE.
We must build a system that works for everyone
JOB ACCESSIBILITY CARS VS. TRANSIT

What percent of jobs within a given city require a driving commute of 60 minutes or longer? What about on transit?

What does this mean for Los Angeles?

- 92% of jobs require a transit commute of 60 minutes or longer
- 12x more jobs are accessible by car than by transit in under 60 minutes
- 7% of jobs require a car commute of 60 minutes or longer
